

# MONARFLEX Ultra 250

## Technical Data Sheet

### MONARFLEX Ultra 250 mono

MONARFLEX Ultra 250 mono consists of two layers of environmentally friendly Low Density Polyethylene (LDPE) with a strong reinforced monofilament grid. UV stabilized, it is available with or without the unique Monarflex flexible rubber eyelet fixing system which saves time during Installation and at the same time preserves the strength of the sheet.

	Ultra 250 mono
<b>Available Sizes</b>	4.00m x 25m 4.00m x 50m 4 x 2 x 2 / 30m 4 x 2 x 2 / 40m 4 x 3 x 2 / 60m
<b>Thickness</b>	0.250mm
<b>Tensile Strength</b>	5.9 kN/m
<b>Thermal Stability</b>	-40°C to +75°C
<b>Light Transmission</b>	76%
<b>Reinforcement</b>	12 mm x 12mm mono grid 0.38mm green thread
<b>Durability under normal conditions</b>	3 years
<b>Colour</b>	Clear with green grid
<b>Resistance</b>	Water/Rot proof IR/UV Resistant
